

CATAPULT

YOUR BUSINESS TO THE NEXT LEVEL

hello

My name is Laura Long. I am the Founder/Creative Director of **Think Bot Creative**. Winning the ADDY® Award made an exciting start to my business in 2001. I have grown to become one of the most successful agencies in the marketing and design industry.

I am a California-born Texan. After graduating college in 1998, I moved from East Texas, (Tyler), then to Dallas to start my graphics career. For over eight years I started developing my skills as a Production Artist working for a company called D Media, where I received some of the best training from the real world of advertising.

I then went on to work as a Graphic Designer with companies from small to large, starting with Nouveau Eyewear, then on to my dream job at CompUSA.

I have worked for over 20+ successful years as a Graphic Designer and now living in Houston, Texas.

My services are based on creative and original concepts with exceptional design products. I offer a wide range of services; production, layout, graphic design, web design, art direction, prepress, illustration, and more. I'm known for my creativity, modern and fresh ideas, flexibility, and a sense of humor with an uncanny ability to interpret the client's unspoken wishes to come up with the right solution.
